The Queen must be worried.

T/N: "Jjanjjang ttangttong ttaengttong" is a phrase of Dilomm's song in which a rabbit imitates "ttangttang" in a Korean onomatopoeia for jumping in a odd way.

Cf.

White Rabbit is the character that first appears on the 1st chapter of [Alice in Wonderland] and continues to be called as White Rabbit, but he is called as Herald once by Heart King only after reaching chapter II. In [Alice in Wonderland], White Rabbit is a very weak and timid character that contrasts with Alice

Thank you for always commenting and giving star points. I was thinking of releasing every other week when I first began this manhwa, but I ended up releasing every week as I prepared for it lots and wanted to show the story to the readers as soon as possible. However... I can't draw all the times, and the amount of saved stories has decreased by a lot so... TT TT. Even though I started to release it on October, I've been saving up since August, so there was a lot. Still, I ended up working on chapter 6 TT TT (Who ate that tremendous amount of saved ones?) So... I thought it was better to release every other week as I've planned than to go on hiatus, and... here I am putting up this announcement. TT TT I'll come back with every week release once I stack up more saves. TT TT Please forgive me TT TT TT TT TT TT TT TT

P.S It might be a bit boring before some character appears and turns the story into a_ mess...

I'm sorry I couldn't protect you drawing of Alice I drew in rush because I wanted to cheer on the examinees.
